Activity Highlight: IT Pro SME Seminar

Techland introduced the latest "TOW" solution in IT Pro SME Seminar on 22 May 2014 in the office of Federation of Hong Kong Industries.

The seminar invited different I.T. solution providers presenting how to create business opportunity with internet technology. The response of seminar was overwhelming with over 100 audiences. As one of the guest speaker, Techland shared about how to maximize SME's profit by the synergy of E-commerce and ERP system. The latest solution "TOW" brings the breakthrough to traditional business model with E-commerce technology and feature, which help to link up customers and suppliers in an integrated web platform.

TecE Feature Highlight：Task Scheduler

TecE Task Scheduler enhance efficiency by automate routine task, enterprise can now allocate their resources on their value-added business.

System can perform the assigned task, e.g. generate report, import/export item or customer/supplier information automatically on defined schedule. System will send the reports and files to specific recipients by e-mail / TecE mailing centre. User can define the schedule of the task perform, or be triggered right after other task finished. For details of above features, please contact us at 3793-6666, thanks.
