Case Study：Theo HK Company Limited

Theo HK Company Limited introduced TecE ERP to support their long term development of business. Break through from traditional OEM / ODM model, Theo aims to build up own brand and gains the customers with quality of service. TecE ERP helps Theo to maintain a close strategic partner relationship with factory by enhancing the communication between HK & China. They can now focus on the R&D of new products and provide comprehensive supply chain services to the customers。Details

TecConnector Supports Powerful KPI Analysis

Near the end of 2015, many companies start to review the KPI performance over the year and plan for the coming year. Staffs often take a lot of effort and time to prepare the analysis reports to fit the requirement of different managers and different purposes. TecConnector is a highly flexible reporting tools, integrated with MS Excel, users can customize their reports without programming techniques. TecE system data will be extracted and updated on real time basis. TecConnector is especially suitable for ac-hoc reports and comparative analysis to support decision making.
